

SANDESH KHATIWADA

SATUNGAL, KATHMANDU | KHATIWADASANDESH.COM.NP | GITHUB.COM/SANDESHKHATIWADA05

SUMMARY

B.Sc. CSIT graduate and backend developer with hands-on experience building production-grade Java applications using Spring Boot, Spring Data JPA, Spring Security, and PostgreSQL. Skilled in REST API design, JWT-based authentication, database modeling, and AI/automation projects using Python. Working knowledge of C#, JavaScript, cloud platforms (Azure), Linux, Docker, and distributed systems fundamentals. Strong foundation in Data Structures, Algorithms, and Microprocessor concepts.

TECHNICAL SKILLS

- Languages: Java, Python, C++, C#, JavaScript, PHP
- Frameworks & Libraries: Spring Boot, Spring Data JPA, Spring Security, Django, Flask, .NET, React
- Databases: MySQL, PostgreSQL, MongoDB, CockroachDB
- Cloud & Infrastructure: Microsoft Azure (VMs, App Services, Storage, Networking), Docker
- Distributed Systems: Apache Hadoop (Ambari), basic cluster management and monitoring
- DevOps & Code Quality: Git, Maven, JUnit, SonarLint, SonarQube, SonarCloud
- Tools & Analytics: Jupyter Notebook, Power BI, Microsoft Office

EXPERIENCE

- Java Developer | Samyukta Technology | Oct 2025 – Present
- Build backend modules using Spring Boot, REST APIs, PostgreSQL, and Git in a production environment.
- Implement authentication (Spring Security, JWT); debug and optimize existing codebase under senior guidance.

PROJECTS

- **Naagarik Feedback System** : Java Swing, .NET, Spring Boot, SQL: Developed a citizen feedback platform in three versions (Java Swing, .NET, and Spring Boot); authored and submitted three formal reports (SAD, Software Engineering, and E-Government).
- **Hospital Management System** : Java Swing, .NET, Spring Boot, SQL Developed a citizen feedback platform across three iterations (Java Swing, .NET, and Spring Boot); authored and submitted formal project documentation including SAD, Software Engineering, and E-Government reports.
- **College AI Agent** : Python, Flask, Ollama, Lovable AI Built an AI agent for the college website as part of a Data Science and Machine Learning course; scraped website content to answer user queries via LLM processing; implemented two versions, one using Flask with Ollama and another using Lovable AI for seamless integration.
- **Library Management System Django** : Django, Python Developed a web application to manage library operations (issue/return, search) as a time-bound certification project.
- **E-Commerce Website** : WordPress, WooCommerce, Yoast SEO, Rank Math Built a full-featured e-commerce website using WordPress and WooCommerce; implemented coupon functionality and payment gateway integration (eSewa sandbox); optimized for SEO using Yoast SEO and Rank Math, ensuring smooth product management, checkout, and user experience.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (2019-2021)

Orchid International College, Gaushala, Kathmandu

+2 in Science (2021 - 2026)

Prasadi Academy, Mabhawan Lalitpur

ADDITIONAL INFORMATION

- **Certifications:** Oracle Java SE 21 Developer (1Z0-830) - Udemy, Python & Django - Broadway Infosys, SQL Intermediate - HackerRank, Advanced WordPress Course - Udemy
